

## Case Study (4)

### Entities, attributes & their relationship

#### 1.Customer Entity

- customer\_id
- customer\_name
- customer\_phone
- customer\_email
- customer\_date

#### 2.Payment Entity

- payment\_id
- payment\_date
- payment\_amount
- payment\_uer\_id

#### 3.User Entity

- user\_id
- user\_name
- user\_type
- user\_date
- user\_email
- user\_password

#### 4.Permission Entity

- permission\_id
- Permission\_user\_id

#### 5.Profit Entity

- profit\_id
- profit\_date
- profit\_amount
- proft\_user\_id

#### 6.Report Entity

- report\_id
- report\_date
- report\_location
- report\_payment

- report\_user\_id
