

Case Study (3)

Entities, attributes & their relationship

1.Customer Entity

- customer_id
- customer_name
- customer_phone
- customer_email
- customer_date

2.Shoe Entity

- shoe_id
- shoe_name
- shoe_type
- shoe_brand

3.Order Entity

- order_id
- order_name
- order_number
- order_customer_id
- order_shoe_id

4.Product Entity

- product_id
- product_number
- product_type
- product_shoe_id

5.User Entity

- user_id
- user_name
- user_type
- user_date
- user_email
- user_password

6.Payment Entity

- payment_id
- payment_date

- payment_amount
- payment_customer_id

7.Permission Entity

- permission_id
- permission_user_id
